OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide at all times the best possible telephone service at the lowest rates consistent with reasonable earnings and fair treatment of employees.

SOME TELEPHONE SUGGESTIONS

From years of study and experience we have learned that the most satisfactory results in using the telephone are obtained when certain practices are followed. We are offering some of the results of our observations in order that you may get the best results from your telephone.

Good Practices To Follow

Obtain the correct telephone number from the directory before making a call. If it is not listed, call "Information."

Speak slowly, clearly and directly into the telephone, with your lips close to the mouthpiece.

Answer your calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of your firm when answering, identifies you and saves time.

When your conversation is completed, hang up the receiver and, if at a magneto telephone, give one short turn of the crank. This gives the operator the disconnect signal.

Keep the receiver on the hook when the telephone is not in use or your line will be out of order.

Telephone Attachments

The telephone provided you is an intricate and sensitive instrument, developed through years of experiment and research. It is complete in itself to give the best possible service.

Our experience has been that the attachment of other auxiliary apparatus to telephone instruments generally interferes with service. Therefore, we request you to refrain from attaching any devices, not supplied by the Company, to the telephone instrument or other equipment. For the same reason, we also request that no advertising devices be attached. The Telephone Company reserves the right to remove all such apparatus and devices.

If you have a special problem of telephone service, please call our Business Office and we shall be glad to assist you in meeting it.

Directory Information

The Telephone Company issues directories to assist in furnishing prompt and efficient service and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors in, and omissions of, directory listings but they may occur and the Telephone Company will assume no liability for damages caused to a subscriber because of such errors or omissions. Likewise the Telephone Company will not be a party to controversies arising between subscribers or others as a result of listings published in its directories.

Directory Ownership

Use of an out-of-date directory interferes with good telephone service as each new issue contains many changes in numbers and listings. Simply as a matter of good service, the Telephone Company retains ownership of the directories and they should be surrendered by customers upon delivery of the succeeding issue.

Regulations and Tariffs

The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A Company representative will gladly lend assistance in securing information from such regulations and tariffs.

JUST CALL OUR BUSINESS OFFICE FOR ASSISTANCE IN PLANNING TELEPHONE NEEDS

LONG DISTANCE SERVICE

To Make a Long Distance Call—Ask for "Long Distance" when you wish to make a long distance call. Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called, followed by your own telephone number. If you wish to talk to a specified person, also give the name of that person.

A Station-to-Station call is one on which you ask to talk with anyone available at the called telephone except when that telephone is an extension or a department reached through a private switchboard.

The charge for a Station-to-Station call begins when the called telephone or private switchboard is answered. Charges are based on an initial period of three minutes except to points for which the rate is 25 cents or less, where the initial period is five minutes. An additional charge is made where the time talked is in excess of the initial period. Station-to-Station calls cost less than Person-to-Person calls described below.

A Person-to-Person call is one on which you ask to talk to a specified person, or to a specified telephone or department reached through a private switchboard.

Charges begin when you reach the person, extension or department you have specified. Charges are based on an initial period of three minutes and a charge is made for time talked in excess of that period. On uncompleted Person-to-Person calls where the specified telephone or private switchboard is reached, but not the desired person, extension or department, a small report charge is made.

If the party cannot be reached directly by telephone, the operator, at your request, will arrange to send a messenger to summon the called person to a telephone. This will involve a small additional charge to defray the expense of the messenger.

For both Station-to-Station and Person-to-Person calls special rates are in effect every night from 7 p. m. to 4:30 a. m. and all day Sunday. These rates are lower than corresponding week day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls and in general 50 cents for Person-to-Person calls.

The charges on either kind of a call may be reversed without extra cost except that the short distance Station-to-Station call amounting to 20 cents or less for the initial period, takes a slightly higher rate when sent collect.

On Person-to-Person and Conference calls a Report charge is made when failure to establish the connection is beyond the control of the Telephone Company. A Report Charge also is made on reversed Station-to-Station calls when the answering party refuses to accept the charge and, as a result, the call is not completed.

To obtain specific rate information refer to inside front cover or call "Long Distance." If you wish to have the Long Distance operator tell you the cost of a call at the close of a conversation, notify her when you place the call.

Classified Telephone Directory

November 1940

"WHERE TO BUY IT"

NORTHWESTERN BELL TELEPHONE COMPANY

IT'S *Easy* TO USE THE

CLASSIFIED TELEPHONE DIRECTORY

Here's How to Find Where to Buy the Article or Service You Want—

1 Locate the heading descriptive of the article or service you wish. These are listed alphabetically. Trade-marks or brand names will be found under headings descriptive of the product or service.

2 Then select from the listings the firm or individual with whom you wish to do business.

You will find general headings descriptive of particular kinds of articles or services with lists of dealers who can serve you.

You will find display representation which will provide you with more complete buying information.

Here's How to Find the Telephone Number of a Business Firm You Have in Mind—

1 Locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

2 Then locate the desired firm and telephone number by examining the listings under the heading.

If further information is desired, please communicate either by telephone or letter with our Business Office.

We Believe in
AMES

The national government and the state government have fully recognized the value of organized effort. The Ames Junior Chamber of Commerce represents organized effort in building the community, promoting civic projects and making our city a finer place in which to live.

It is your organization. Be a member and have a real active part in building your home, business and community.

We maintain Club Rooms in HOTEL SHELDON-MUNN.

and save time*

IOWA STATE COLLEGE

Telephone Directory

FROM AMES TELEPHONES CALL 2500

Emergency and Special Calls

FIRE (to report a fire) from 7 a. m. to 10 p. m. Dial "O"
(At all other hours dial "9" and call "Fire Department")

LONG DISTANCE—from 7 a. m. to 10 p. m. Dial "O"
(At all other hours dial "9" and ask for "Long Distance")

Use of the Dial Telephone

After obtaining the correct number from the directory, remove the receiver and listen for the dial tone. It is a steady humming sound which lets you know that the central office equipment is ready to receive your call.

How To Dial

Dial each figure of the number you are calling in the order shown in the telephone directory.

Take, for example, the dialing of telephone number 763. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "7" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures "6" and "3" may be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

Service Signals

Ringing Signal—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

Busy Signal—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

Should you hear neither of these signals after dialing, dial "O" and tell the operator of the condition.

Calling From College Telephones

To Other College Telephones—To call another telephone connected with the college telephone system, lift the receiver and upon hearing the dial tone, dial all three figures of the number in the order in which they appear in this section of the directory.

To Outside Telephones—To make a call to a telephone not connected with the college telephone system, lift the receiver from

the hook and upon hearing the dial tone, dial the figure "9." Give the number of the telephone you wish to reach to the operator who answers.

Calls From Outside Telephones

To call a college telephone from telephones not connected with the college telephone system, telephones without dials, call 2500. Give the number of the college telephone you wish to reach to the college operator who will answer and handle your call. Numbers of college telephones are listed in the following pages.

Night Calls

In order that calls from "outside" telephones may be completed to certain college telephones during the hours 10 p. m. to 7 a. m. when a college operator is not on duty, night numbers have been assigned to hospital, residence halls and certain other telephones. A complete list of the night numbers is shown on the last page of this section of the directory.

To make a call between 10 p. m. and 7 a. m. from a college telephone to a college telephone with a night number, dial "9" and give the night number to the operator who will handle your call. Calls from college telephones to all other telephones should be placed at all hours as previously mentioned.

To call college telephones from "outside" telephones during the period 10 p. m. to 7 a. m., give the operator the night number of the telephone you wish to reach.

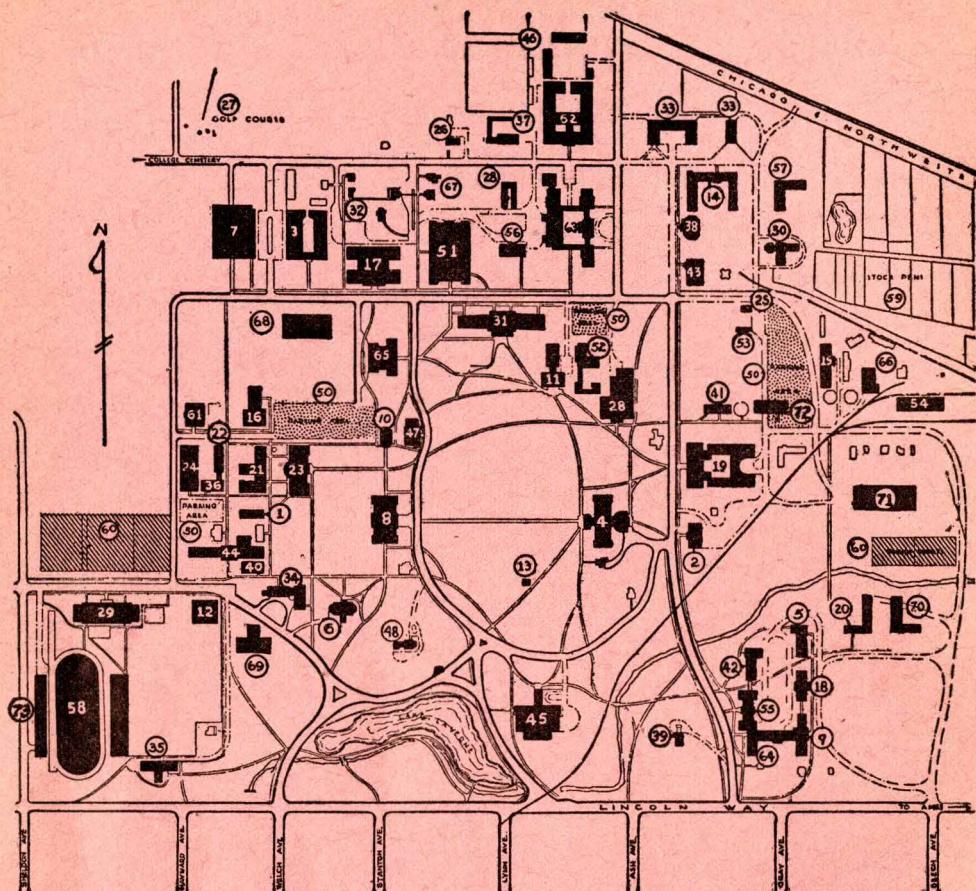

Non-Listed Numbers

College telephone numbers added or changes made too late to be included in this directory will be furnished by the college operator. She may be reached from college telephones by dialing "O" and from "outside" telephones by calling 2500.

Directory and Service Changes

All changes in telephone service or directory listings for college telephones should be handled through the Iowa State College Business Office.
